AI Wearables
REAL-TIME AI DATA
WIRELESS OFFLOAD

- <2ms latency, high-bandwidth low-power links
- True Wireless Stereo (TWS)
- Audio Synchronization

**Presence
Detection for IoT**
PRECISION & SCALABILITY

- Interference-resilient
- Competitive costs
- Multi-year battery life

Gaming

HID

- Near-zero latency
- True 8 kHz sustained polling
- 30%+ lower power vs 2.4 GHz

HEADSET

- <5ms latency
- 96 kHz / 24-bit uncompressed
